

MINI BITCOIN INNOVATIONS  
GROUP

# Mini Bitcoin (IBTC)

Presented by: The Mini Bitcoin Development Team

# Introduction

Mini Bitcoin (IBTC) is a **decentralized cryptocurrency token** built on the BNB Chain, aiming to transform the crypto ecosystem. With a total supply of 100 billion tokens and 16 decimals, IBTC is designed to support innovative projects including Cryptobank, exchange services, and NFT gaming, while enhancing user experience through utility services and technology products in the evolving digital economy.

# Vision & Mission

## **Vision**

To build a powerful multi-industry ecosystem where blockchain, financial technology, virtual reality, and e-commerce converge, powered by a fast, secure, and scalable token.

## **Mission**

Promote mass crypto adoption through real-world utilities. Build a decentralized ecosystem that offers advanced digital financial services, VR/AR metaverse experiences, real estate platforms, gaming products, and online commerce.

Provide users with a versatile token usable across multiple sectors globally.

# IBTC Tokenomics

01

## Name

Mini Bitcoin (IBTC) is designed to enhance the decentralized finance experience within the BNB blockchain ecosystem.

02

## Symbol

The token symbol IBTC represents Mini Bitcoin, a unique asset aimed at transforming the crypto landscape.

03

## Total Supply

With a total supply of 100 billion tokens, IBTC ensures ample availability for diverse crypto projects and utility services.

# Exploring the Mini Bitcoin Ecosystem

## Cryptobank

A secure platform for digital asset management.

## Exchange

Streamlined trading for diverse cryptocurrencies.

## Blockchain

The backbone of our decentralized operations.

# Exploring NFT Gaming and Virtual Reality

## NFT Gaming

**Transforming experiences** through unique digital assets.

## Virtual Reality

Immersing users in **innovative digital environments**.

## Augmented Reality

Enhancing interaction with **the real world** and digital.

# Real Estate Projects

Virtual Reality Real Estate  
(Metaverse Land)

A VR-driven metaverse where users  
Can Buy, sell, or rent virtual land  
Build VR homes, offices, malls  
Host VR meetings, events & gaming  
zones

Earn IBTC rewards from metaverse  
activities

# Real Estate Projects

Real-Time Real Estate (Physical Property Integration)

A blockchain-powered real estate portal Real-world property listing

Tokenized asset ownership

Secure BNB/IBTC property payments

Smart-contract-based buying & renting

E-COMMERCE INNOVATIONS

# Project Details Overview

A global online marketplace:

Pay with IBTC

Cashback rewards

Seller dashboard with analytics

Worldwide delivery partnerships

# Crypto Ecosystem Innovations

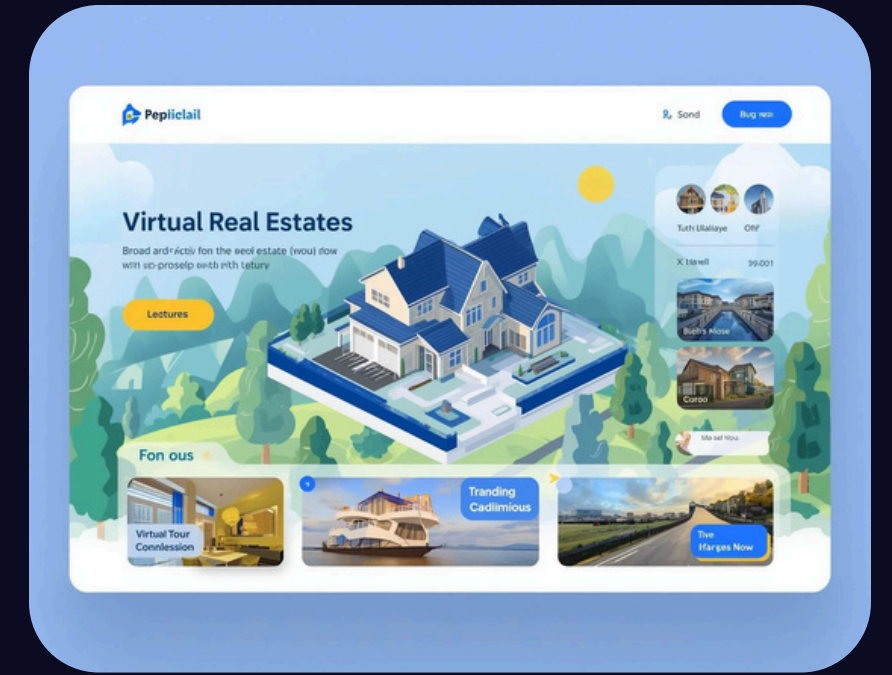

## Real Estate

Innovative properties enhance user interaction and investment.

## E-Commerce

Seamless transactions empower users in the digital realm.

## Virtual Reality

Immersive experiences redefine property exploration and sales.

Mini Bitcoin (IBTC) aims to provide a **comprehensive range** of utility services and technology products to enhance user experience and drive adoption within the cryptocurrency market. By integrating innovative solutions such as decentralized finance tools, digital wallets, and user-friendly interfaces, IBTC is committed to simplifying access and improving interactions with blockchain technology for everyone, from beginners to experienced traders.

## AI Innovation

AI innovation unlocks new possibilities and transforms industries.

# Artificial Intelligence

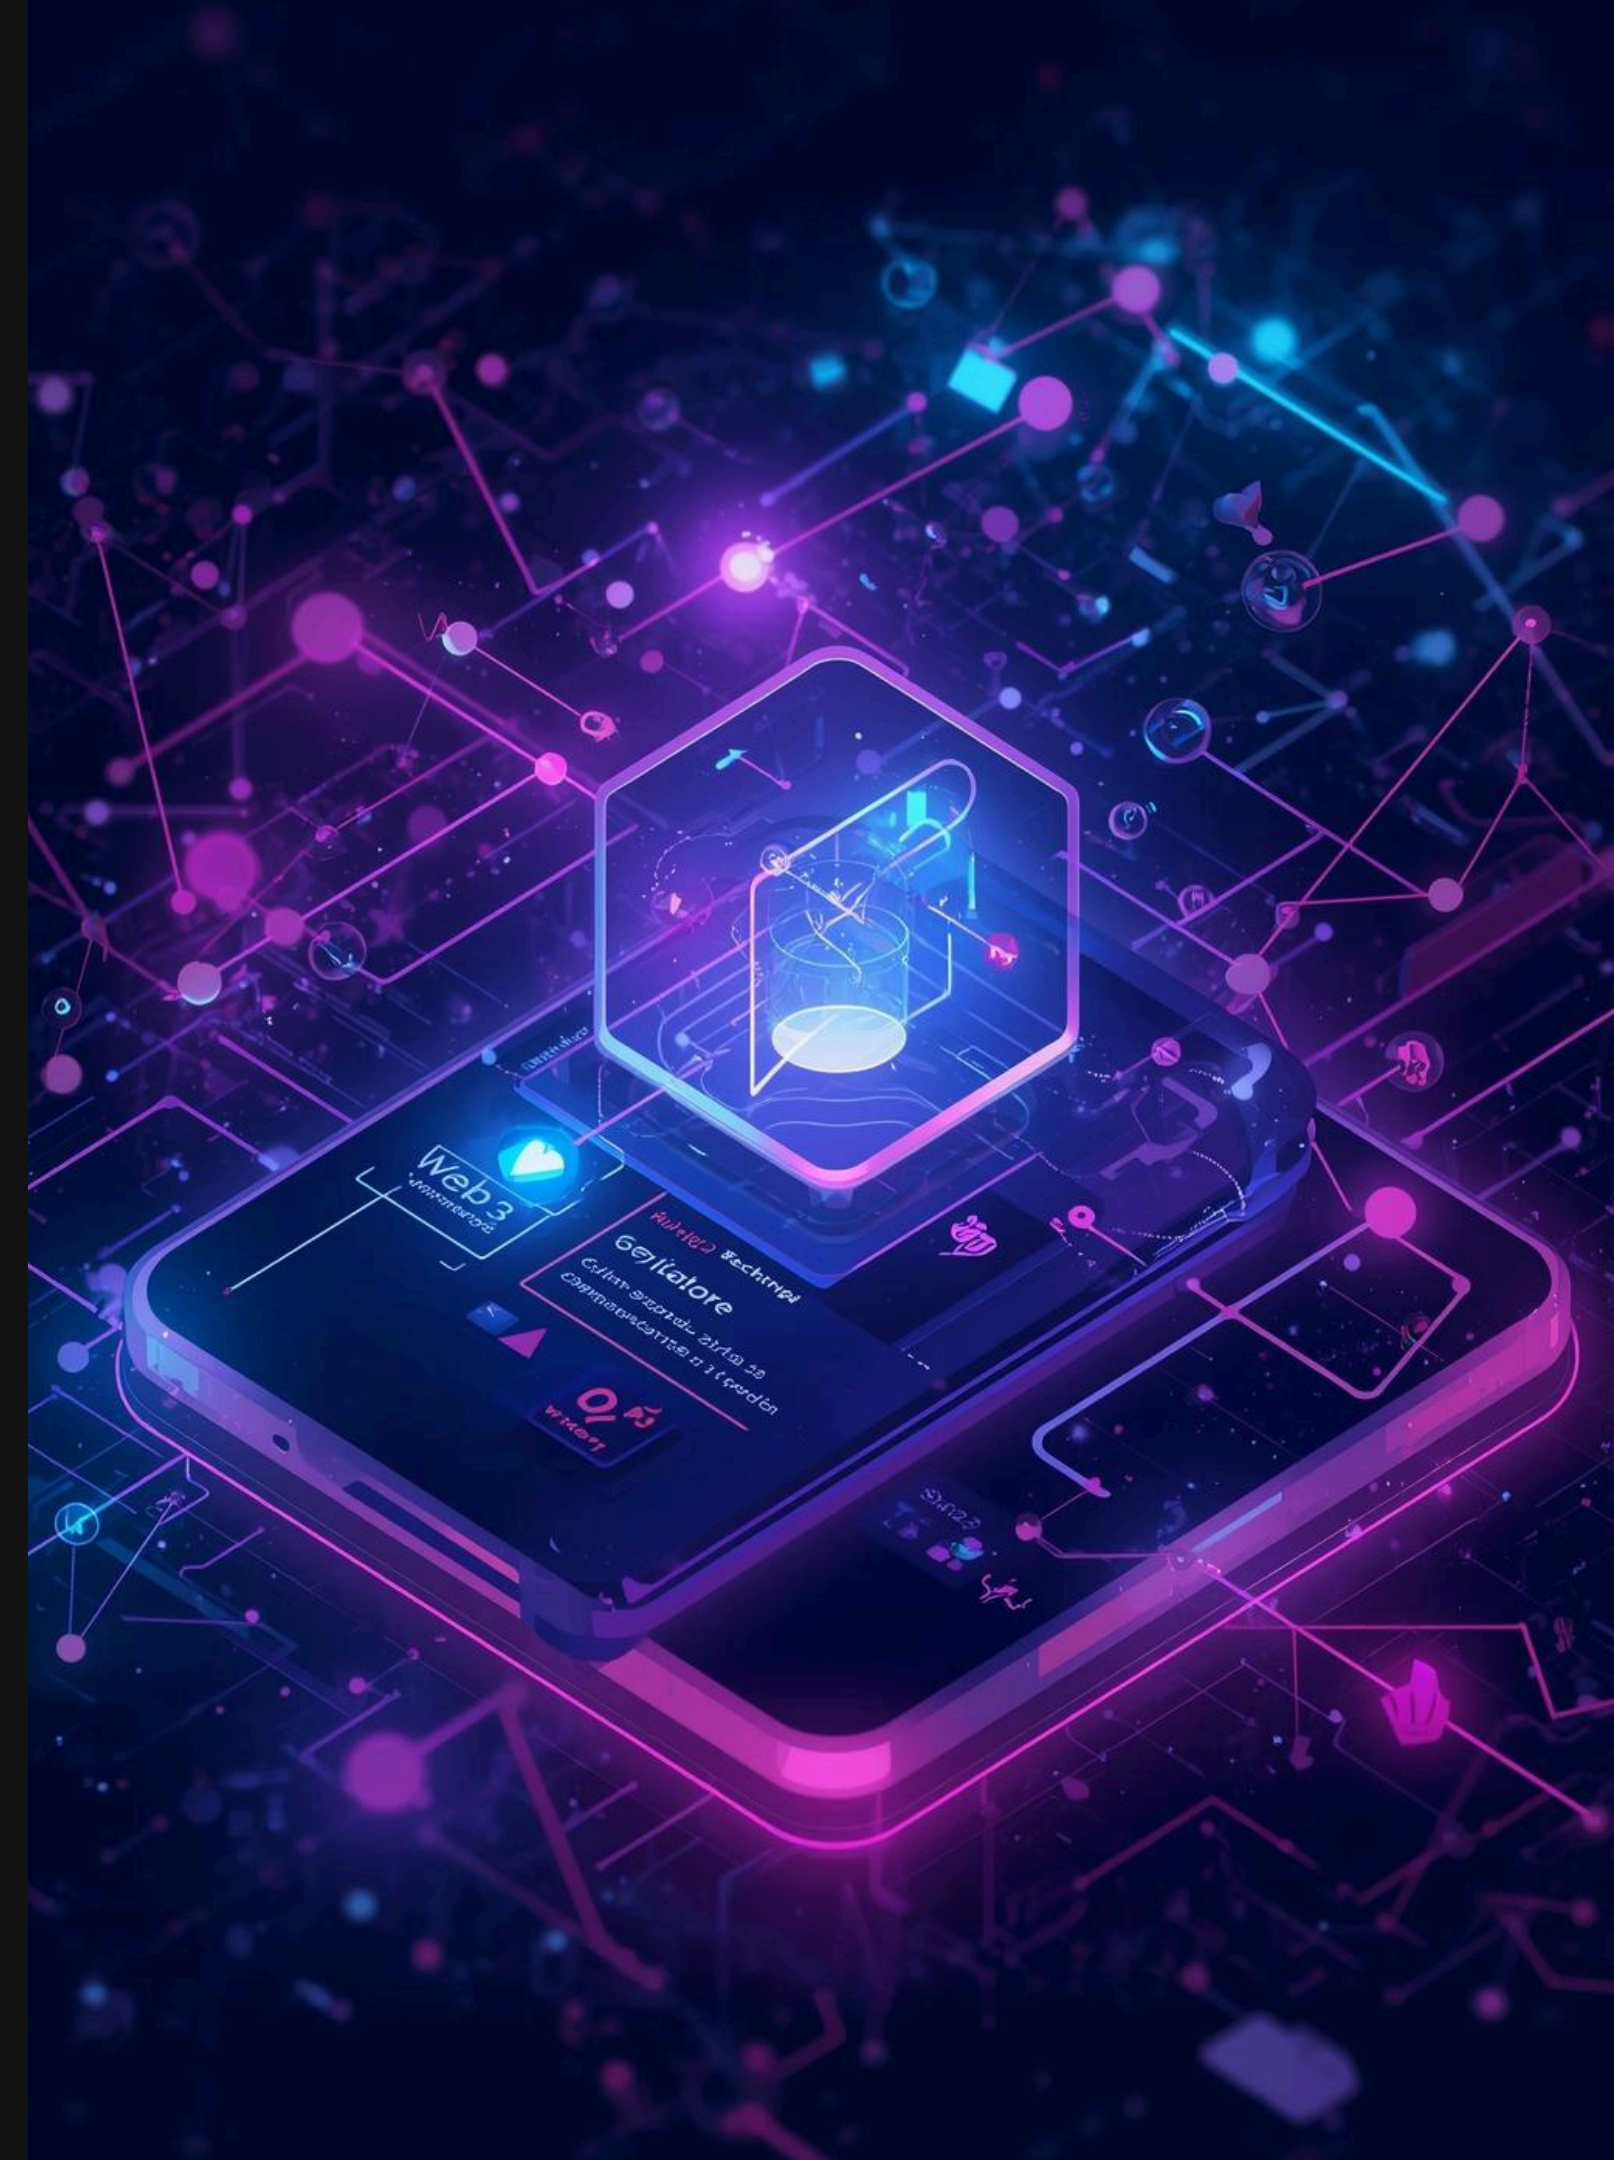

AI innovation unlocks new possibilities and transforms industries by driving smarter decisions, automating complex processes, and enabling personalized experiences. With advanced analytics and machine learning, organizations can predict trends, optimize operations, and improve productivity. AI-powered tools enhance healthcare diagnoses, streamline manufacturing, strengthen cybersecurity, and revolutionize customer service, creating scalable growth and future-ready solutions.

# Real-World Applications of Web3

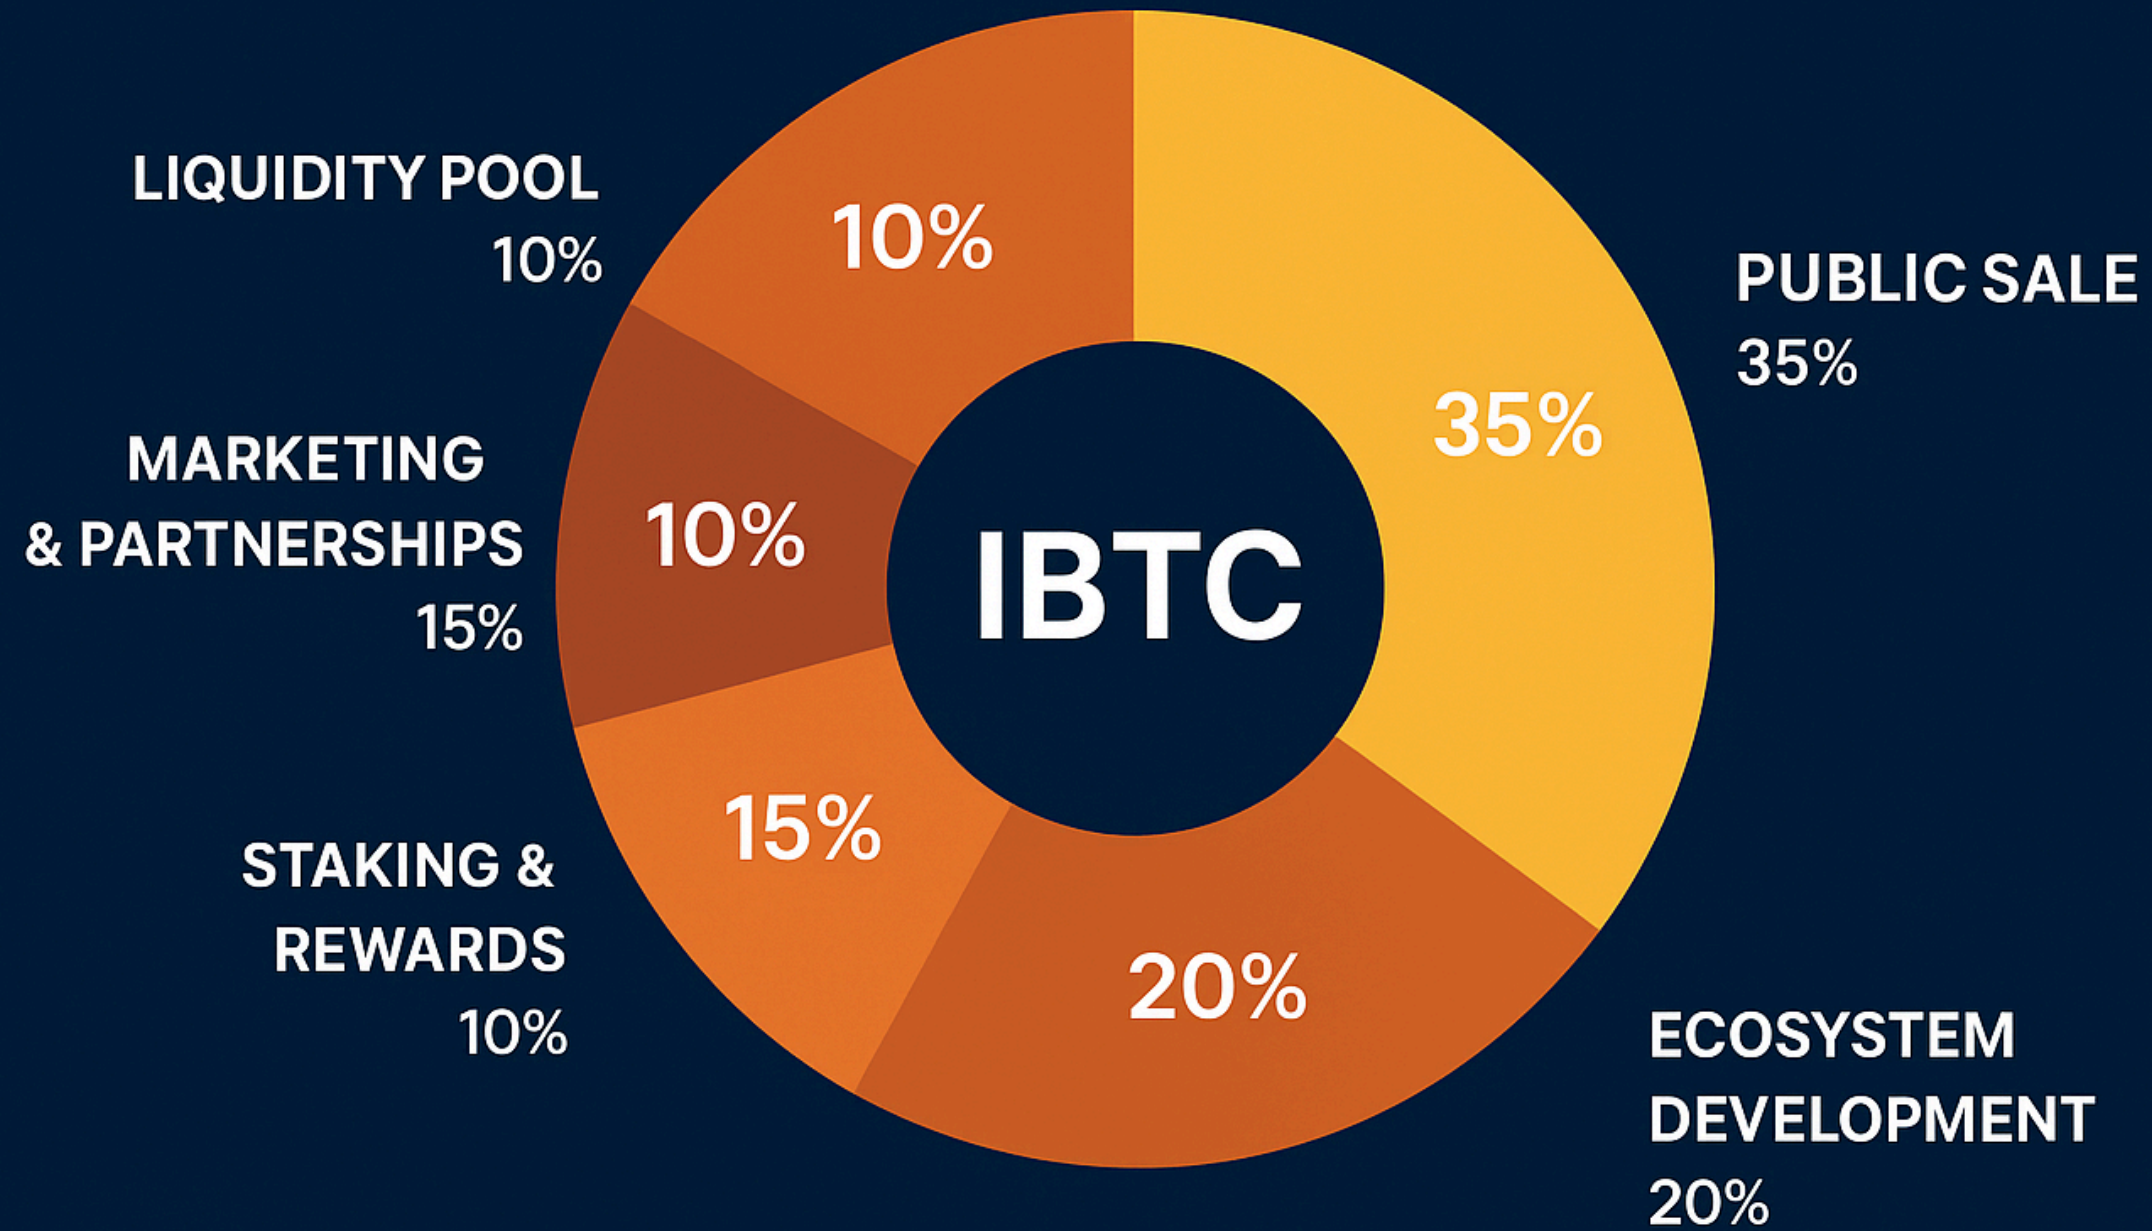

Transforming industries through decentralization

Web3 technologies empower industries by enabling **peer-to-peer interactions**, enhancing security, and promoting transparency. Examples include decentralized finance, supply chain management, and digital identity solutions, redefining how we interact online.
